

# SYNERGY

The establishment of the company DNA<sup>3</sup> Design Agency GmbH in 2016 in Hamburg, Germany did not happen by chance. It was a result of a solid business partnership, leading to a synergy of two companies working in complementary business areas.

The company PART Trading GmbH located in Hamburg Germany, as the distributional part looking back on over 20 years of successful business. The Studio Anna Korny located in Kiev Ukraine, as the creative part with more than 10 years of professional experience.

As the sum of this enriching collaboration the DNA<sup>3</sup> Design Agency GmbH was able to create a line of special and unique products. Our aspiration is to create innovative concepts and products for the high demands of the retail industry and implement those high standards to fulfill the expectations of our customers.

# PRESENTABLE

The PresenTable is a presentation table with storage space for bottles, boxes and glasses. The table is extremely easy to access from all sides and turns a degustation into a joint event.

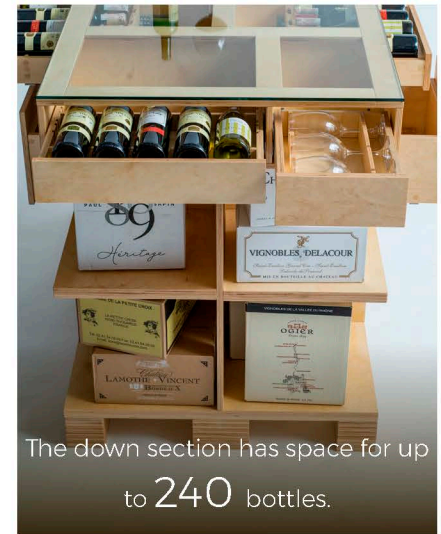

PresenTable comes with invisible castor rolls which make it easier to place the table wherever you like.

The upper section  
has space for 6 glasses ...

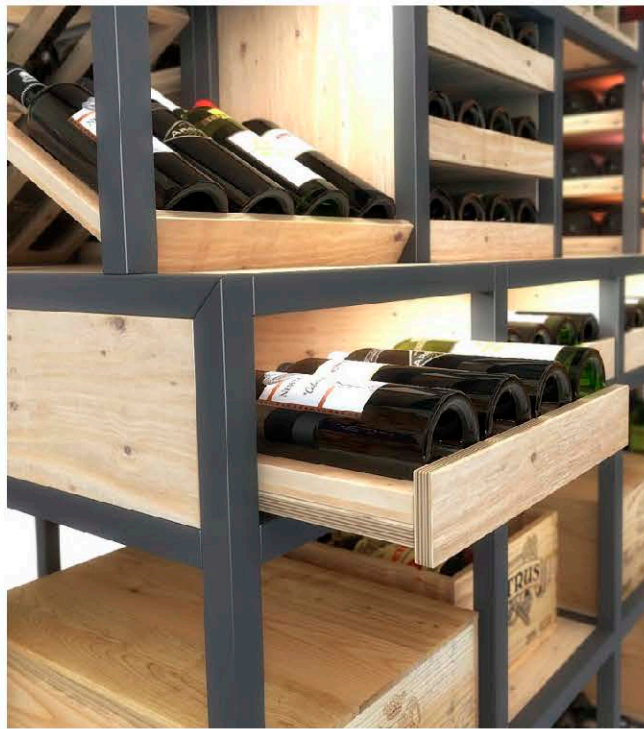

... and 18 bottles.

The down section has space for up  
to 240 bottles.

# MODULAR SHELF CONCEPT

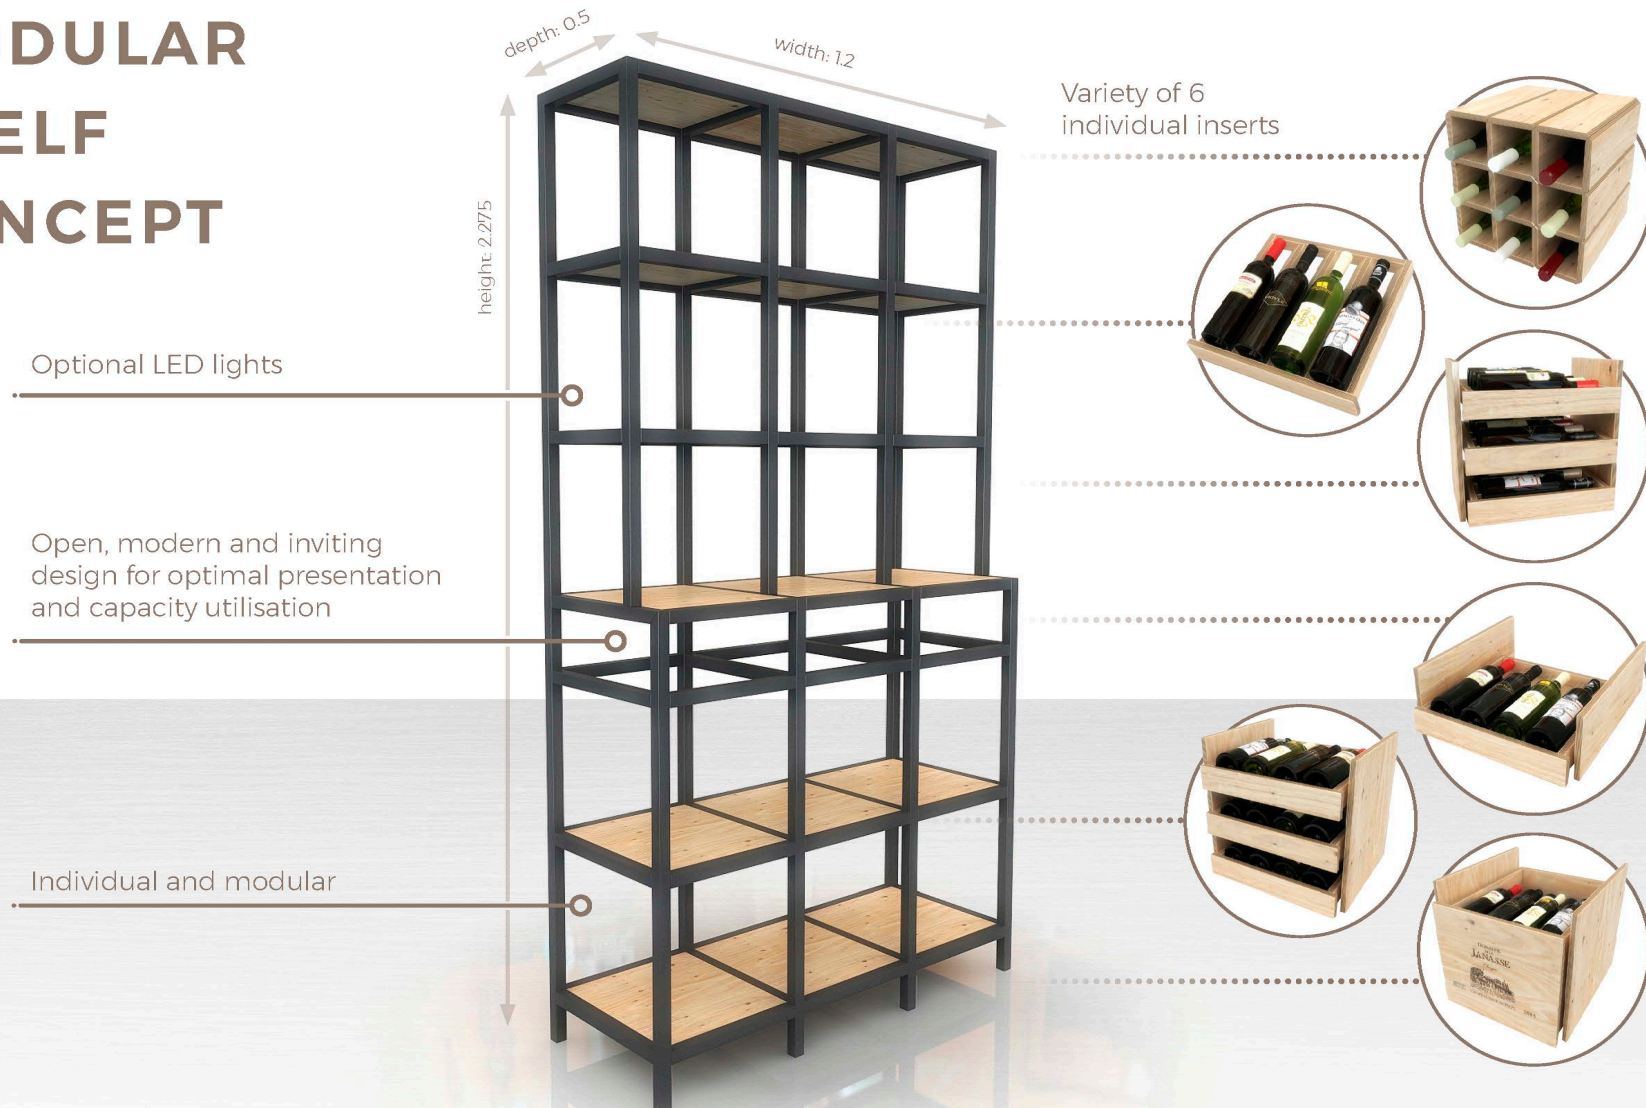

SIMPLICITY AND  
FUNCTIONALITY

MODULAR DESIGN  
FOR YOUR INDIVIDUAL  
PRESENTATION CONCEPT

# MODULAR SHELF CONCEPT
